

REVIEW

Author: Sameepa Poonga Valappil, M.Sc.

Thesis: Cross-linking and Degradation Studies of Polyolefin Elastomers

Reviewer: Assoc. Prof. Petr Svoboda, Ph.D.

By successful publishing of her work in peer reviewed journals (European Polymer Journal, Journal of Applied Polymer Science and Polymer International) Sameepa proved the ability to plan and perform experiments, evaluate results and write papers about it.

This thesis is written on a high scientific level and therefore I recommend it for the final defense.
