7	 Validate element text	Text Validation	00:00:27:451	FAILED

This is a simple Login page. Students can use this page to practice writing simple positive and negative Login tests. Login functionality is something that most of the test automation engineers need to automate.

Use next credentials to execute Login:
Username: **student**
Password: **Password123**

Username

Password

Submit

Your password is invalid!

Test case 1: Positive Login test

1. Open page
2. Type username **student** into Username field
3. Type password **Password123** into Password field
4. Push **Submit** button
5. Verify new page URL contains **practicetestautomation.com/logged-in-successfully/**
6. Verify new page contains expected text ('Congratulations' or 'successfully logged in')
